weather both my wife and myself contracted severe colds which speedily developed into the worst kind of the grip with all its miserable symptoms," says Mr. J. S. Eggleston, of Maple Landing, lowa. "Knees and joints acking, muscles sore, head stopped up, eyes and nose running, with alternate spells of chills and fever. We began using Chamberlain's Cough Remedy, aiding the same with a double dose of Chamberlain's Stomach and Liver Tablets, and by its liberal use soon completely knocked out the grip."

for the snapper banks.

The British steamship Coninston Water left for sea yesterday.

Frank Cooney in Gloucester.

Jr., one of Pensacola's leading skippers, is here for an extended stay, after a successful red snapper season,
—Gloucester Correspondent Fishing Millions in Fish.

Just 95,659,680 pounds of fish of all kinds were landed at Boston during 1908. The value is given at \$2,565,010. At Gloucester, the amount landed was 85,805,567 pounds, valued at \$2,064,-415 .- Fishing Gazette.

Losses in Shipping Trade. A cable to the New York Sun from London says:

The full figures of the transatlantic passenger trade of 1908 show an extraordinary situation which explains Pomeron to J. A. Merritt & Co. the terrible losses in the shipping

The number of passengers going to America in 1908 was 635,000, which glis to J. A. Merritt & Co. was 1,048,000 less than in the previous year. The number leaving America was 859,000, or 89,000 more ber Co.

The loss to the steamship companies in gross receipts was \$34,000,000.

Curious Fish. there are none more curious and interesting than those that infest salt and fresh waters, says "Popular Mechanics." One is the "Arapaima Gigas." the largest fresh water fish known. It thrives in the rivers of Brazil and often attains a length of 15 feet. Another is the "Remora," or sucking-fish. It is found in tropical and warm seas. By means of the adnesive disc on the top of its head it attaches itself to whales and ships and is thus carried about from place to place. It can give any human be-
